FOR HIGH
ABSORPTION

BETTER GROWTH
BETTER RETURNS

PREMIUM
QUALITY

COMPLETE NUTRITION.

BETTER HEALTH. HIGHER PRODUCTIVITY.

OPTIMAL HEALTH & MAINTENANCE

Provides essential minerals and nutrients to maintain overall health and support daily body functions.

ENHANCED GROWTH & WEIGHT GAIN

Supports steady and healthy growth for better body weight and condition.

IMPROVED PRODUCTIVITY & REPRODUCTION

Enhances fertility, conception rates and milk yield for better reproductive performance.

STRONG IMMUNITY & DISEASE RESISTANCE

Boosts natural immunity and helps animals stay strong and disease resistant.

BETTER DIGESTION & NUTRIENT UTILIZATION

Improves digestion and nutrient absorption for maximum feed efficiency.

MORE ENERGY & BETTER PERFORMANCE

Increases energy levels, reduces fatigue and improves overall performance.

Cow/Buffalo:
Daily Feeding Rate
30-50 g/day

Sheep/Goat/Calves:
Daily Feeding Rate
10-20 g/day

Available in 2 Kg, 5 Kg, 10 Kg and 20 Kg bucket

GROWTH & WEIGHT GAIN FORMULA

For Healthy Growth, Better Immunity and Higher Weight Gain

PROMOTES
HEALTHY GROWTH

ENHANCES
WEIGHT GAIN

BOOSTS
IMMUNITY

IMPROVES
APPETITE & DIGESTION

COMPOSITION:

———— Each 10 ml. contains: ————

Ferric Ammonium Citrate
Eq. to Elemental Iron

50 mg.

Cyanocobalamin

7.5 mcg.

Folic Acid

1 mg.

Zinc Sulphate

7 mg.

Pyridoxine

1.5 mg.

Sorbitol Solution 70%

750 mg.

Vitamin D

2000 I.U.

Saccharomyces Cerevisiae **100 Cf.u.**

Lactobacillus Sporogenes **100 Cf.u.**

Mannan Oligosaccharides **100 Cf.u.**

Excipients

4 gm.
q.s.

BENEFITS:

**Supports
overall growth
and development**

**Improves feed
conversion
efficiency**

**Helps in early
maturity and
better body
condition**

**Strengthens
immunity and
reduces calf
morbidity**

DOSAGE & ADMINISTRATION:

Buffalo Calf:

10 ml.
twice daily

Cow Calf:

10 ml.
twice daily

Lamb / Kid:

5 ml.
twice daily

Or as directed by
the Veterinarian.

Available in **500 ml** and **1 Litre** packing

BacterVet Pharma

Powerful Combination of Selected
Herbs, Vitamins & Minerals
enriched with **Carbohydrate**

Doodh Master[®] Liquid

Milk Booster

1 Ltr.

COMPOSITION: Each 50 ml contains

Chandrasur	500 mg
Nagarmotha	500 mg
Kalonji	500 mg
Vidarijand.	500 mg
Jatamansi	750 mg
Shatavari	1000 mg
Jivanti	1750 mg
Calcium	1000 mg
Phosphorus	740 mg
Vitamin A	8000 mg
Vitamin D3	1000 mg
Vitamin E	50 mg
Carbohydrate	12500 mg

INDICATION

Helps in increase
easy let down of milk

Helps to increase
milk production in
dairy cattle

Helps to improve
quality of milk

Helps to repair
mammary gland tissues

Helps to minimize
stress in cattle

DOSAGE

Lactating Animals:
100 ml twice daily
for 10 days

Jivanti: 1750 mg

Shatavari: 1000 mg

Jatamansi: 750 mg

Chandrasur: 500 mg

Nagarmotha: 500 mg

Kalonji: 500 mg

Vidarikand: 500 mg

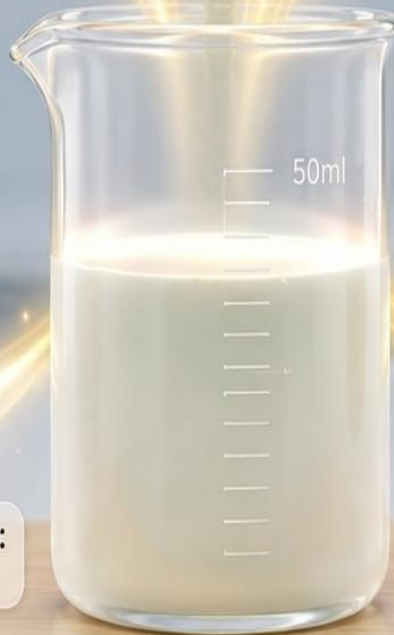

Carbohydrate:
12500 mg

Calcium:
1000 mg

Phosphorus:
740 mg

Serving Size: 50 ml

Vitamin A:
8000 mg (or IU)

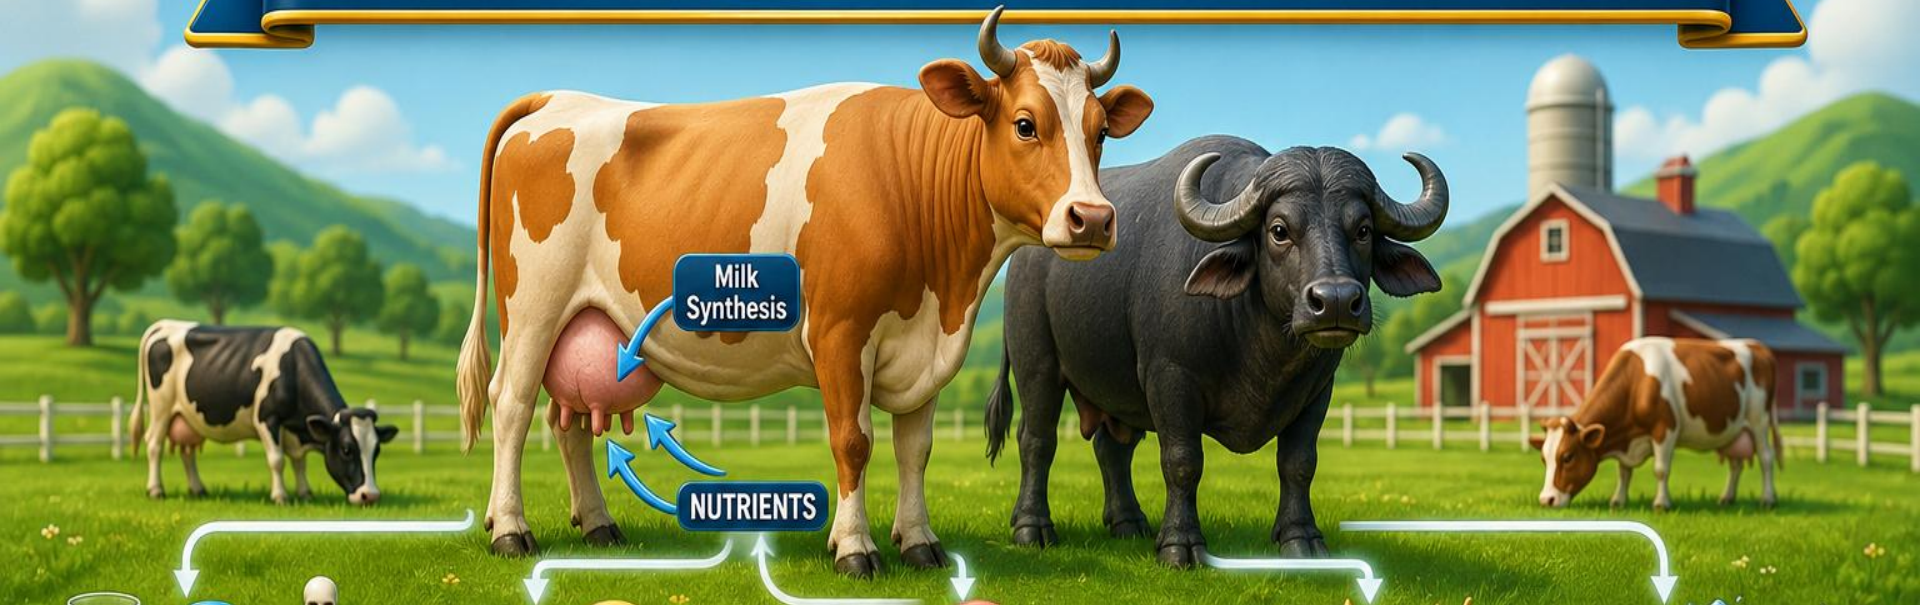

Vitamin D3:
1000 mg (or IU)

Vitamin E:
50 mg

THE ROLE OF NUTRIENTS IN MILK PRODUCTION IN ANIMALS

1  **Ca** 

CALCIUM

- Essential for Milk Synthesis (Calcium secretion into milk)
- Bone Health, Muscle Contraction (helps with uterine health & milk letdown) 

2  **P** 

PHOSPHORUS

- Energy Metabolism (ATP production for synthesis)
- Mineral Balance-with Calcium 
- Rumen Function & Digestion

3  **A** 

VITAMIN A

- Enhances Mammary Gland Health (Epithelium)
- Immune System support (Resist mastitis) 
- Reproduction & Growth

4   

VITAMIN D3

- Regulates Calcium & Phosphorus Absorption from gut
- Promotes Bone Mineralization 
- Essential for maintaining high serum Ca for milk

5  

VITAMIN E

- Antioxidant Protection (Protects cells from damage)
- Boosts Immune System (Mastitis prevention) 
- Improves Milk Quality & Shelf Life

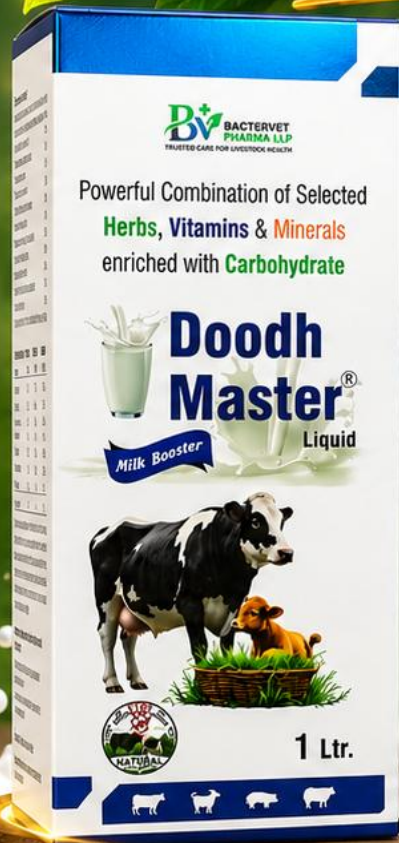

These nutrients work together to increase milk composition and quality in cow and buffalo.

**Antimony
Potassium Tartrate**
250 mg

**Choline
Chloride**
300 mg

**Propionibacterium
Freudenreichii**
100 mg

INDICATIONS

Helps stimulate appetite and feed intake.

Provides faster relief in cases of SARA (Sub-Acute Ruminal Acidosis).

Helps maintain the ideal rumen pH balance.

Supports healthy rumen function and microbial activity.

Helps improve feed efficiency.

Supports better fiber digestion and rumen fermentation.

Supports improved milk production and overall productivity.

Subacute ruminal acidosis (SARA) is a prevalent metabolic disorder in high-producing dairy and beef cattle. It occurs when ruminal pH repeatedly drops to between 5.6 and 5.2 for prolonged periods (over 3 hours daily).

Caused by

1. Excessive consumption of rapidly fermentable carbohydrates (starches/sugars)
2. Lack of adequate physically effective fiber
(MSD Veterinary Manual)

Prevalence:

SARA affects an estimated 20% to 40% of animals in high-producing dairy herds (ScienceDirect)

DOSAGE

Cow
1 Sachet twice daily

Buffalo
1 Sachet twice daily

Goat
Half Sachet twice daily

Calf
Half Sachet twice daily

Sheep
Half Sachet twice daily

Or as directed by the Veterinarian.

ESSENTIAL VITAMINS

FOR HEALTH, GROWTH & HIGH PRODUCTIVITY

H

**VITAMIN H
(BIOTIN)**

-  Supports healthy skin, hair & hooves
-  Aids in growth and development
-  Improves feed utilization
-  Enhances reproduction and fertility

A

VITAMIN A

-  Supports good vision
-  Maintains healthy skin and mucous membranes
-  Boosts immune function
-  Promotes growth and development

D₃

VITAMIN D₃

-  Helps calcium and phosphorus absorption
-  Strengthens bones and teeth
-  Prevents rickets and weakness
-  Supports immune function

E

VITAMIN E

-  Powerful antioxidant
-  Protects cells from damage
-  Supports reproductive health
-  Boosts immunity and overall health

B₁₂

VITAMIN B₁₂

-  Essential for red blood cell formation
-  Supports energy metabolism
-  Promotes healthy nervous system
-  Improves appetite and growth

THE RIGHT VITAMINS TODAY, BETTER HEALTH TOMORROW!

TWO POWERFUL MINERALS FOR BETTER HEALTH & HIGHER PRODUCTIVITY

ZINC METHIONINE CHELATES

Highly Bioavailable Zinc

METHIONINE

Chelated for Better Absorption & Utilization

Boosts Immunity

Stronger disease resistance

Enhances Growth

Better weight gain & performance

Improves Hoof & Skin Health

Reduces lesions & hoof problems

Supports Reproduction

Better fertility & conception rate

Improves Feed Efficiency

Better nutrient utilization

**STRONGER
ANIMALS**
BETTER HEALTH
**HIGHER
PRODUCTIVITY**

SELENIUM

Organic Selenium Source

- Powerful Antioxidant
- Protects Cells from Oxidative Stress
- Enhances Immunity
- Supports Thyroid Function
- Improves Reproductive Performance
- Essential for Muscle Health

STRONG IMMUNITY

Less illness,
healthier animals

BETTER GROWTH

Higher weight gain
& performance

HEALTHY HOOVES & SKIN

Stronger feet,
healthier skin

BETTER REPRODUCTION

Higher conception
& calf crop

HIGHER MILK PRODUCTION

Better yield,
more profit

ZINC METHIONINE CHELATES + SELENIUM = PERFECT NUTRITION, MAXIMUM RESULTS

Lodhra (*Symplocos racemosa*)

&

Punarnava (*Boerhavia diffusa*)

Natural Support for Healthier Buffaloes

Lodhra (*Symplocos racemosa*)

Milk Production:
Support and
boost lactation.

General Health:
Treat postpartum
uterine issues, such
as bleeding.

**Postpartum
Recovery:**
New mothers regain
strength, balance
hormones, and
improve immunity
after childbirth.

**Stronger Immunity. Better Health.
Higher Productivity.**

Punarnava (*Boerhavia diffusa*)

**Anti-bacterial
properties.**

**Liver protective
activity.**

**Help with oedema as
they can help soothe
inflammation and
swelling.**

UDDER GROWTH COMPARISON

Before

After

Well Developed Udder | More Capacity

EACH ml PROVIDES:

★ Vitamin H (Biotin)	12.00 mcg.
★ Vitamin C	50 mg.
★ Vitamin A	30,000 I.U.
★ Vitamin D3	3,000 I.U.
★ Vitamin E	200 mg.
★ Methylcobalamin	1,200 mcg.
★ Zinc Methionine Chelated	1.5 mg.
★ Selenium	0.5 mg.
★ Chromium	10 mcg.
★ Lodhra Extract	10 mg.
★ Punarnava Extract	10 mg.

BENEFITS

- ★ Improves milk production rate
- ★ Improves calf growth
- ★ Improves udder growth
- ★ Reduces chances of dystocia
- ★ Reduces chances of mastitis recurrence
- ★ Enhances breeding efficiency in bulls
- ★ Improves egg production in poultry

FEEDING RATE — LARGE ANIMALS

Before Calving: 100g daily for 15 days

Immediately After Calving: 100g
twice daily for 1 week

After 1 Week Post-Calving: 100g daily
for the next 3 weeks

FEEDING RATE — SMALL ANIMALS

Before Calving: 50g daily for 15 days

Immediately After Calving: 50g
twice daily for 1 week

After 1 Week Post-Calving: 50g daily
for the next 3 weeks

USEFUL IN:

◆ KETOSIS

/ ENERGY DEFICIENCY

◆ MILK FEVER

/ CALCIUM DEFICIENCY

◆ NO HEAT / SILENT HEAT /
DELAYED HEAT

◆ PHYSICAL &

METABOLIC STRESS

NEB (Negative Energy Balance) से बचने के लिए क्या करें :

- ◆ ध्यान में रखें :
आखिरी 3 हफ्ते में Total Fat Booster के साथ
एनर्जी दाना फीड दें और गुड़, अनाज शुरू करें।
- ◆ बयाने के बाद :
Total Fat Booster के साथ अच्छी क्वालिटी का
हरा चारा + सुखा चारा + दाना दें।
- ◆ खनिज मिश्रण :
कैल्शियम, फॉस्फोरस, मिनरल मिक्सचर रोज दें।
NEB से कैल्शियम की कमी सबसे पहले होती है।
- ◆ पानी :
24 घंटे साफ पानी उपलब्ध रखें।

TOTAL FAT BOOSTER

Advanced Energy & Fat Supplement
for Dairy Animals

NEB ध्याने के बाद पहले 6-8 हफ्ते सबसे ज्यादा रहता है !
इसलिए ध्याने से पहले ही **Total Fat Booster** शुरू करें
और इस समय पशु की चुवाती पर सबसे ज्यादा ध्यान दें !

SUMMARY

USE TOTAL FAT BOOSTER

For Better Health, Higher Production & Stronger Immunity

- ✓ Prevents Energy Deficiency (Ketosis)
- ✓ Prevents Milk Fever (Calcium Deficiency)
- ✓ Helps in Heat Problems
- ✓ Reduces Stress & Improves Immunity
- ✓ Supports Overall Health & Productivity

Total Fat
Booster

COMPLETE HEALTH
SOLUTION

KEY BENEFITS

- ✓ Improved Milk Yield & Quality
- ✓ Better Reproduction & Fertility
- ✓ Stronger Bones & Muscles
- ✓ Better Feed Utilization
- ✓ Increased Immunity & Disease Resistance

Healthy Uterus

Healthy Animal

Prosperous Farm

BENEFITS

Helps in expulsion of retained placenta

Uterine cleansing and faster involution

Prevents metritis / endometritis

Improves fertility & milk production

Restores health and strength after calving

DOSAGE

For Expulsion of Placenta :

Soon after calving

In case of retained placenta :

Cows, Buffaloes & Mares: 100 ml twice on the first day followed by **50 ml** twice daily for next 3-5 days

Ewes & Does: 40 ml twice on first day followed by **20 ml** twice daily for next 3-5 days.

For Infertility Treatment:

Cows, Buffaloes & Mares: 100 ml once daily for 10 days

Ewes & Does: 40 ml once daily for 10 days

Administer the dose orally as above
or as recommended by Veterinarian

**PRODUCT BOTTLE
1 Litre Packaging**

* Start after calving
or as advised

* Repeat for 3-5 days
depending on condition

* Safe & Herbal
Formulation
